Combi Blinds

Dual shades, combi, shadow, rainbow and Korean blinds are just some of the names that these blinds have. Dual shades give you the option of letting a soft light in or totally blocking it out. The transparent portions of the fabric also allow some wind to pass through, making it highly multi-functional.

Our dual shades come in many different style and colour of fabrics. Perfect for homes with contemporary décor!

Roller Blinds

A Roller blind is a single piece of fabric which wraps around a casing and fits into the top of your window frame, either within or outside of your window recess. The Roller blind is operated by a pull cord attached to the bottom of the blind or by a side-winding chain mechanism attached to the blind casing. Motorised controls are also available giving you the option to open and close your blinds remotely.

Outdoor Motorised Blinds

If you have an outdoor patio or a balcony in your home or office, you would know how hard it actually is to maintain the furnishing and furniture on them. Brand new furnishings feel washed up and worn just a few months in after being subjected to Singapore's temperamental and unforgiving weather.

But the good news is that all that that can be easily prevented with the use of Roller blinds that can be used for outdoor purposes as well!

Functionally, Outdoor Roller Shades work the same as indoor Roller shades with the use of either a manual spring chain system or a motorised automatic system. However, that's about where the similarity ends.

Set your mood-of-the-day with your favourite virtual assistant.

Get both Google Assistant or Amazon Alexa on your motorised blinds so that you don't have to lift a finger to wind down.

VINYL FLOORING

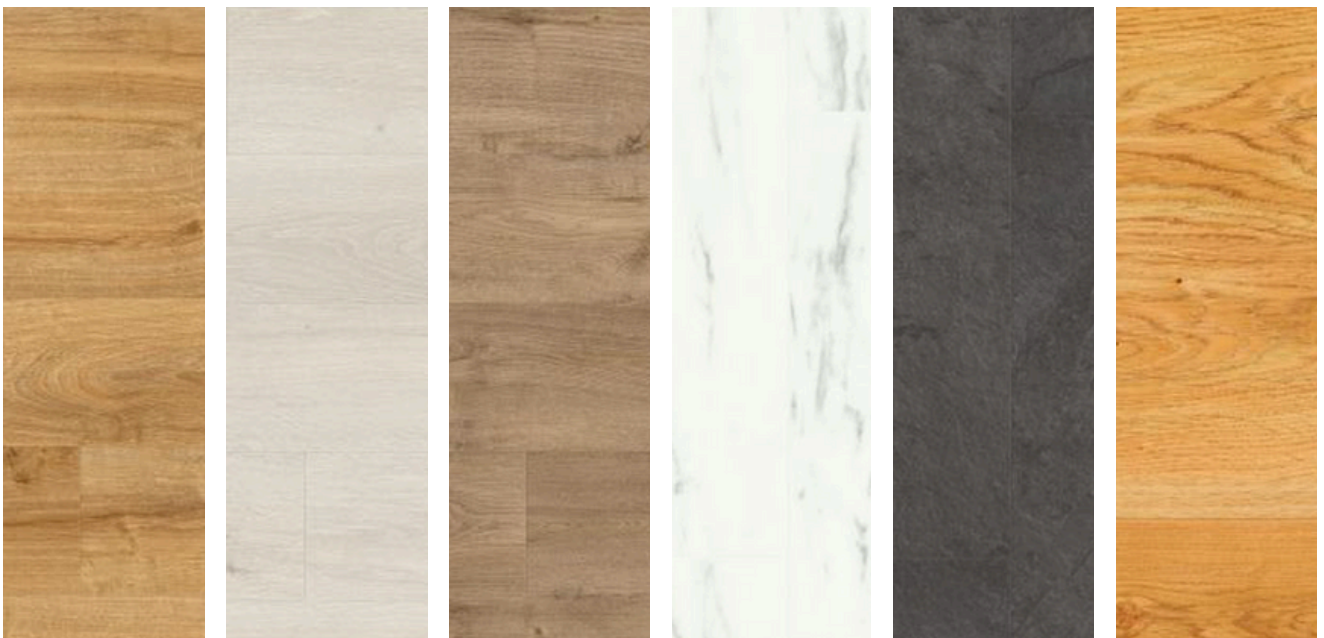

Vinyl flooring is a durable and cost-effective solution for both residential and commercial spaces. Available in a wide range of styles, colors, and textures, it offers the look of wood, stone, or tile without the high maintenance. Water-resistant and easy to clean, vinyl flooring is perfect for high-traffic areas and can withstand the test of time, providing both style and functionality.

Prime Decor Furnishing's Vinyl offers a luxury vinyl flooring finish that combines the natural look and feel of wood or stone with the practical benefits of vinyl tiles

Because of its design options and high durability, vinyl flooring is an excellent choice for residential floors. Not only does it improve the aesthetics of your home, but it is also a suitable flooring material for both children and the elderly.

WINDOW YARD GRILLES

Designed for both security and style, window and yard grilles offer added protection while complementing your home's exterior. Built with durable materials, they help deter intruders without blocking natural light or airflow, making them a practical and aesthetic addition to any property.

Conventional Window Grilles

Our conventional window grilles are made of durable stainless steel and designed to withstand a weight capacity of up to 180kgs. These grilles provide added security without compromising on the view.

Invisible Grilles

For those looking for a modern and sleek look, our invisible grilles are an excellent choice. These grilles are made of high-quality stainless steel and are carefully designed to provide both aesthetic appeal and security. They offer a greater vision while maintaining safety and can be installed in various areas, including casement windows, high ceilings, stairwells, and open balconies.
